

Online Marketing Tips with Connie Ragen Green

Study Guide for June, 2016

Building Your Online Business – Time Management

This Study Guide is intended as a starting point in your quest for success as an online entrepreneur. It does not replace what you can achieve by working with a Mentor within a group of like-minded individuals.

So, how do you manage your time as an entrepreneur?

1. Maintain a dynamic to-do list on a mini legal pad next to your work space.
2. Decide which items are best delegated to others, which you should take action on, and which can be eliminated altogether.
3. Discover when your "prime time" hours are and schedule your work accordingly.
4. Always ask yourself: 'Is what I am doing right now moving me closer to my goals or further away?'
5. Protect your time, as it is your most valuable resource.

Let's discuss some concepts about time management:

- ✚ Your _____ is when you will do your highest level thinking and acting.
- ✚ Is what you are doing right now _____?
- ✚ Don't get into the habit of _____.
- ✚ Give yourself an ongoing business education by _____.

What Do You Need For Successful Entrepreneurship?

- ✓ WordPress Blog/Site
- ✓ Business PayPal Account
- ✓ Content Creation/Publication/Syndication Strategy

What Do You NOT Need?

- ✓ A bricks and mortar location
- ✓ An MBA or other formal education or degrees
