

3 Things About Affiliate Marketing Your Favorite Guru Won't Tell You

Why, thanks to a huge shift in the marketplace, new affiliate marketers without a list, experience and a product of their own can finally make it big!

Hi, my name is Jason Fladlien.

And thanks to a **huge shift in marketplace** that's still ignored by everyone but few savvy marketers...

My business partner Wilson Mattos and I recently made **\$254,081.50 in just 7 days in pure affiliate commissions**. *(And we still keep getting unexpected wire transfers of up to \$100,000 every now and then thanks to continuity payments... nice!)*

SUMMARY FOR 03/12/2012 TO 03/19/2013	
Commissions:	254,081.50
Clawbacks:	0.00
Payments:	0.00
Balance on 03/20/2013:	254,081.50

... That's not just a fluke.

Ever since I've discovered the shift I'm going to reveal to you *(and more importantly, how it applies to YOUR affiliate campaigns!)*, Wilson and I have been constantly leading affiliate leaderboards - with relatively little effort.

And now I can do it all over and over again... whenever I want.

How?

By taking almost unfair advantage of a couple of changes in the marketplace.

The 3 Fundamental Changes

(that make gurus uneasy... and 'little guys' ecstatic!)

1. The money is NOT in the list anymore
2. A new breed of marketers are going to make all the money
3. ... And being big is a disadvantage

First of all, the size of your email list doesn't matter anymore. In fact, if you don't have an email list at all... you're going to be fine.

For example, **I've outsold affiliates with lists 10 times the size of my list...** and only a percentage of my sales came from my own list anyway.

Here's why.

Email Marketing Is Dying!

You don't have to look further than world's most popular email service, Gmail...

... To see the writing on the wall.

Did you know that they're about to introduce an update that's gonna lump together all the emails from marketers into a tab called 'Promotions'?

The open and click-through rates of promotional emails (which aren't that spectacular to begin with...) are going to fall even further.

What We Do Differently...

Have you thought about Skype as an unstoppable marketing machine? Probably not, right?

Wilson and I have been building Skype groups for the last year... and while email marketers struggle to get 20%+ delivery and open rates...

We've been enjoying almost 100% delivery rate (and 80% of these messages were read minutes after we sent them!).

That's just one thing you can apply right now that's guaranteed to make you more money. But...

This Goes Even Deeper!

Thanks to massive changes to how we communicate with each other online...

The usual approach of shoving down your affiliate link down as many peoples' throats as possible isn't gonna work - no matter what you use.

You can't spam people with your affiliate link on Facebook, Twitter, Skype, Google+, heck, even Dropbox... and expect them to buy.

That's why...

**A New Breed Of Affiliate Marketers Is About To Emerge
(And They're Going To Become Filthy Rich, Too!)**

... And you can be among them.

Before we start... Let me clear something up.

The Biggest Affiliate Marketing Myth Since The Beginning Of Time Is...

... That you can magically make thousands of dollars just sharing your affiliate link everywhere you darn please for 5 minutes a day and make a truckload of cash.

Here's the thing... affiliate marketing is NOT an excuse to be LAZY.

Sure, people sell it on the premise that "it's easy, everything has been done for you, blah blah blah"...

That's a load of BS... and there's certainly no money in being lazy.

The money is in creating value.

For example...

- You could help someone get results FASTER
- You could help someone get results EASIER
- And you could help someone get BETTER results

... with whatever it is you're promoting as an affiliate.

So instead of doing what everyone else does...

You look for people who are already about to buy something... and you make it easier to buy through you... than it is to for them to buy on their own.

You can do that in ANY niche... and I can guarantee that you're going to see amazing results.

But perhaps the MOST important point that everyone seems to miss is...

Once You Figure Out How To Add Value... People Will WELCOME Your Messages No Matter How You Send Them!

The future belongs to the 'social affiliate marketer'.

In other words... the more channels you use to communicate with prospects, and the more value you add (it can be as simple as explaining the order process to them!).. the more sales you'll make. Pretty straightforward, right?

"Little Hinges That Swing Big Doors"

The last insight I want to share is that being big is actually a disadvantage. It prevents you from being nimble.

Remember Myspace? Blockbuster? Yahoo?

And to succeed as an affiliate marketer... you have to be pretty nimble - especially now.

Here's why.

I estimate that the opportunity window is going to be open for 8-10 months.

Some small timers will get rich... some will watch from the sidelines... and some will still try and build their email list.

So if you start taking massive action NOW...

If you mold yourself to be that 'social affiliate marketer' that truly GETS the changes we're going through...

AffiliateHD

You're going to make A LOT of money.

Now... Lets talk business.

How YOU Can 'Exploit' All Of This To Get QUICK Results

If someone hits you with massive, dazzling proof and tons of new information like I just did...

You immediately assume there's **a snowball's chance in hell you're going to make \$250k+** as an affiliate... while taking action on few simple principles.

Your Hunch Is Dead On.

These results are NOT typical. I don't think even your favorite guru's favorite guru is making that kind of money.

However...

The lasting change that is happening right now... makes it possible for you to make a killing as an affiliate. Even without a list, without experience and... without really selling, either.

Even if you won't make \$250k+ in a week (yet!), even 1% of that is \$2,500. Now that's REALISTIC.

... Realistic, attainable income that can take care of more than one bill.

... That is completely within your reach. With one caveat... If you truly grasp what's going on online right now - and take advantage of it.

In Fact, My Techniques Are Going To Make One Lucky Marketer Close To 1/4 Million Dollars THIS YEAR!

I could talk all day long, but the proof is in the pudding, right?

Check this out:

I'm about to make Zane Miller close to a 1/4 million dollars this year...

And all it took was **one Skype conversation** a few days back.

I told him to start building a Google+ community related to one specific topic. I also explained how he could easily join other communities to "leech" members because they will add him to THEIR circles.

And then I broke down for him how he could build this community for free... with aggregated content that can be easily be pulled from Google News, he can easily have 5,000 potential buyers and high quality leads in his circle by year end.

It's easy... once you know exactly how.

Anyone can implement this strategy (and others that I'm going to reveal...) and get amazing results.

How would you like this strategy, served on a silver platter?

Would you like to learn our methodical approach to Skype marketing?

What about ALL the tricks that let some of our affiliates to exploit the change... even though they aren't aware of it?

AffiliateHD

How would you like to get your hands on the best darn affiliate course ever created... and discover methods that let a lot of people make money in 30 days or less?

Introducing...

AffiliateHD

... If You Truly Want To Succeed As An Affiliate Marketer ASAP!
(Interactive Training Program)

I know that what I have here is a bit of an investment up front...

It's the SMARTEST investment I know that you can make with your money... AND with your time.

In AffiliateHD, you're going to access all my methods, techniques and tricks that have allowed me to make huge paydays as an affiliate...

... and while this is cutting edge stuff.. I'm going to keep it 100% relevant to someone new!

So if you don't have tons of experience, a huge email list, or any other kind of following... I'm going to teach you how you can build your affiliate empire from scratch.

Oh and if you're worried about how much money you're going to invest beyond the price of the course...

If money's tight, you can make do with just your own domain name and hosting. That's like \$10 for a domain and \$10 a month for hosting.

AffiliateHD

A 50% commission of a \$299 sale a year will pay for that... and obviously we're going to focus on how to make a TRUCKLOAD more sales than just one.

AffiliateHD Is Designed To Make It Near Impossible To Fail!

... You're going to get exact, clear instructions (*and never more than you can realistically digest and implement!*)

AffiliateHD will automatically unlock one module per week. It's going to take you about an hour, maybe hour and a half to go through it... and then some hours to implement all the stuff.

Of course, you won't fall behind no matter what. This isn't high school, so if real life interferes.. it's fine. Just get back on track to making money as soon as humanly possible.

12 Value Packed Modules: A Sneak Peek

Module #1: Make Back Your Investment In 1 Hour Or Less

The first module is called "Affiliate Profits Quickstart" where I will show you how to make back your investment in AffiliateHD in 1 month or less.

This coaching program will more than pay for itself and become free to you very quickly if you take action on what I teach you.

My number #1 goal is for you to make back your money and turn a profit with this coaching program in less than 5 weeks!

I know some tricks to accomplish this - I will show you exactly the lowest of the low hanging fruit so you can immediately set up your business.

The Easiest Way I Can Make You Money Quickly...

Is our free 'social media' hack that will let you connect to Skype.

In **Module 1**, I'm going to give you your own "Skype-powered" marketing process... and show you how easy it is to get as many as 300 people to your first Skype group using the "big 5 social media sites" strategy.

Module 1 is built upon a philosophy that I have infused into my own Internet Marketing career:

"You Will Learn While You Earn!"

This is pretty much a 'quick fix' module that's designed get you that first boost of confidence by making you at least enough money to cover the costs of this course... and more!

Anyhow, let's check out Module #2...

Module #2: The Long Term Approach That Can Still Make You \$1,000 Sales Like Clockwork Quickly!

I will show you how with no following, no reputation, no list, or anything other than the plan I hand to you...

... You can go in and make 5 to 10 sales off the next big high ticket marketing launch in almost any niche.

Usually, these launches are at the \$1997 price point, and you make 50% commissions, so how would 6 or 7 sales at \$998.50 commission a piece within the next 2 months sound to you.

... Just follow the plan I give you in Module 2!

While You Were Busy Working On Modules 1 & 2...

... As a byproduct, you've already laid a lot of groundwork to your passive income.

Unlike any other affiliate course... We're building assets that you can capitalize on over and over again.

(Assets like that Skype group!)

Modules #3 And #4: Expand Your Audience

Modules 3 and 4 are about each and every effective way you can build your audience to supercharge all of your affiliate promotions. Most specifically I break down once and for all...

How you can go "direct to newsfeed" advertising on Facebook... even to people who you're not connected to!

Plus, the Google+ communities secret that I'm fairly confident will make Zane \$250k in the next 12 months. *(The beauty of this is it's untapped!)*

With this, you won't need any more traffic sources... because you'll be easily able to get more traffic than you can handle with just these 2 methods!

Modules #5 And #6: Reach Them Everywhere

Enter Modules 5 and 6. In these two modules I will show you the piece of the puzzle that everyone else is missing.

And this is how you're going to beat other affiliates because they don't take advantage of this!

AffiliateHD

Basically these modules provide you with tools, systems and plans of how to reach your prospects everywhere... through Youtube, Dropbox, Facebook, Skype, Google+... whatever they might be using.

This means A LOT of traction for your promotions!

Module #7: Leveraging Your Assets

Module 7 is where things get really interesting. Now you're ready to take advantage of one of the most opportune things that until now, wasn't even remotely possible... but now it is!

You'll be able to get other affiliates to mail through YOUR LINK because of one simple bonus package strategy you can set up in a few hours!

I will show you how to do this... as well as the nuances involved to make the tracking work perfectly and seamlessly.

Module #8 And #9: Let The Experts Work For You

In these modules, I'm going to teach you how to create an "event based affiliate marketing launch" where you get 5 to 7 big named marketers to mail their list... and each promote their own product through your affiliate link.

It's like the good old interview model... except that it works today and gets incredible results to almost everyone who does it.

Plus, you're going to discover why it's actually really easy to get the experts agree to this... (there's something in it for them that they CRAVE! and no, it's not "reputation", "exposure" or whatever)

AffiliateHD

Modules #10 And #11: Scaling And Outsourcing

Scaling is important, because the more money you make, the more challenging it becomes to keep your time cost down.

You want to build something that you can add onto that will support the additional LOAD you add to it.

In these modules, you're going to learn every secret of scaling your affiliate business up to whatever level you desire...

While spending as little time as possible on active day to day work stuff.

Module #12 - The Exit Plan

I'm assuming you want to retire one day, and not run this business up until you find yourself on your deathbed.

Once you get your affiliate marketing business up and running, over time the shift becomes to build it until it's self sustaining, and then eventually until someone pays you a huge lump sum (or monthly installments) to acquire it from you.

A Brighter Future Is Just One Decision Away

I'm pretty excited about you.

Because when you look back at all your success...

There's going to be this one decision that you can trace it all back to.

The one decision that finally made sense. That connected the dots. That allowed you to escape the rat race of your 9-5... and that finally set you up with some passive income so you can do whatever you want while

...working a manageable amount of hours!

(Notice how I'm NOT promising you \$254,251.74 while you sleep. That's NOT going to happen right now. Maybe in 10 years.)

Most of this stuff can be applied if you have 3 hours a day or even less.

Let's run some numbers...

AffiliateHD

Imagine that you only made 1% of what I did in 7 days. I made \$254,081.50, so 1% of that would be \$2,500+. That's a realistic number... in fact, I'd say it's pessimistic.

Now, if you spent 3 hours per day for 5 days to make that... That's 15 hours. And \$2,500 divided by 15 is roughly \$165. That's a very decent hourly wage, wouldn't you agree?

Here's the decision you're facing.

You can either get in as soon as you can before the special offer ends...

... And strap yourself for a **wild yet profitable ride that has the potential of setting you up for life...**

... because you'll get in **on the ground floor** on what is possibly the biggest opportunity in years...

OR...

You can pass. Maybe you're too busy as it is and maybe you're making loads and stacks of crispy cash.

Maybe you want to continue chasing the pipe dream others are selling.

Whatever the case...

Know that if you miss this and come back later, you're going to pay \$2,499... unless there's a special offer going (and there won't be for at least a year!)

Are you ready to make the right decision?
